Psychology (PSYC)

Courses

PSYC 100. Introduction to Psychology. 4 Units.
(GE=D4)
A survey of the field of modern psychology.

PSYC 101. Psychology as a Major. 1 Unit.
Prerequisites: PSYC 100
A survey of different areas of specialization and professional activities of psychologists. Graded credit/no credit.

PSYC 105. Critical Thinking Through Problems Analysis. 4 Units.
(GE=A4)
Development of basic skills in critical thinking including identifying and understanding common fallacies, recognizing techniques of persuasion and propaganda, problem solving strategies, and applying skills of critical thinking to the complex issues of everyday life.

PSYC 115. Personal and Social Adjustment. 2 Units.
(GE=E2)
Application of psychological principles to predictable challenges and problems over the life span. Explores opportunities for adjustment and growth in a variety of circumstances, such as family and college life. May not be counted toward fulfillment of requirements in the psychology major.

PSYC 120. Career Development. 2 Units.
Examination of the world of work and individual self-assessments, including exploration of career aspirations and goals.

PSYC 201. Developmental Psychology. 4 Units.
Prerequisites: PSYC 100
Introduction to the psychological development of the person from the prenatal period through old age.

PSYC 210. Psychological Statistics. 5 Units.
Introduction to statistical reasoning and application of basic statistical procedures in psychology. Includes both descriptive and inferential statistics with emphasis on parametric techniques. Credit may not be received for more than one of the following courses: ADMN 210, PSYC 210, or SSCI 215. Four hours lecture and three hours of laboratory.

PSYC 240. Introduction to Child Development. 4 Units.
Comprehensive introduction to child development from conception through adolescence. Emphasis is on physical, cognitive social, emotional and language development. (Offered as HD 240 and PSYC 240. Students may not receive credit for both.)

PSYC 300. Positive Psychology. 4 Units.
Exploration of theories and empirical research related to positive psychology. Topics include values, human strengths, health, positive thinking, happiness, gratitude, and close relationships.

PSYC 301. Psychology of Human Sexuality. 4 Units.
Theory and empirical findings from the areas of social, developmental, physiological, and clinical psychology as they apply to human sexual behavior.

PSYC 302. Management and Organizational Behavior. 4 Units.
Introduction to management as it affects operations and the behavior of people in relation to the functional fields of administration. Selected behavioral concepts analyzed with respect to applications in management. Offered as MGMT 302 and PSYC 302. Students may not receive credit for both.

PSYC 303. Parenting and Family Relations. 4 Units.
Prerequisites: PSYC 100 and PSYC 201 or equivalent
Effects of parenting and intra-family relations on child and life-span psychological development.

PSYC 305. Language Development. 4 Units.
Prerequisites: HD 240 or PSYC 201 or 240
An introduction to theory and research on the psychological study of language, first language acquisition, and the relation of language to thought and culture.

PSYC 308. Psychology and the Movies. 4 Units.
Exploring psychology through the movies. Movies will be screened during class and used as a vehicle for discussing such psychological topics as mental illness, the portrayal of psychiatry and therapy, creativity, relations between different ethnicities and cultures, gender issues, biases and prejudices, and other essential topics.

PSYC 310. Applied Research Methods. 4 Units.
Prerequisites: PSYC 100 and PSYC 210
Overview of applied research methods in psychology and the behavioral sciences. Emphasis on the use of applied methods, their analyses, and scientific writing. Topics may include quasi-experimental design, correlational design, behavioral observation, archival analysis, single-case methodology, survey methodology, research ethics, library research strategies, and writing research reports. (Offered as HD 310 and PSYC 310. Students may not receive credit for both.)

PSYC 311. Introduction to Experimental Psychology. 6 Units.
Prerequisites: PSYC 100 and 210; restricted to psychology majors, human development majors, human services majors or consent of department
Design and execution of psychological research. Four hours lecture and six hours laboratory.

PSYC 315. Communication Processes. 5 Units.
Prerequisites: PSYC 100
Introduction to the nature of the helping process with emphasis on strategies of behavior change, interpersonal communication and basic helping skills. Four hours lecture and two hours laboratory.
PSYC 318. Health Psychology. 4 Units.
Prerequisites: PSYC 100
Examination of psychological aspects of health related behaviors with emphasis on the effects of interpersonal and social psychological factors on physical health and effective medical care.

PSYC 320. Psychology of Middle Childhood. 4 Units.
Theories and their applications to physical, cognitive, social and emotional development during the middle childhood years. A field based component will be required.

PSYC 324. Developmental Psychobiology. 4 Units.
Prerequisites: PSYC 100
Psychobiological bases of human behavioral development throughout the life span. Offered as HD 324 and PSYC 324. Students may not receive credit for both.

PSYC 328. Psychology of Adolescent Development. 4 Units.
Theory and empirical literature concerning the physical, cognitive, social, and emotional changes from puberty to adulthood. A field based component will be required.

PSYC 329. Psychology of Adulthood and Aging. 4 Units.
Prerequisites: PSYC 100 and PSYC 201, or consent of instructor
An examination of physical, social, cognitive, and personality development from young adulthood through death. Special attention is given to theory, research, and applications in the area of gerontology.

PSYC 331. The Psychology of Women. 4 Units.
Prerequisites: PSYC 100
A critical study of theory and data on the psychological development of females; their attitudes, behaviors, psychopathologies, abilities and self-images.

PSYC 333. Drugs and Behavior. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Analysis of drugs from psychological, behavioral and physiological viewpoints. Topics include drug classification, altered states of consciousness, addiction, chemical nature and treatment of mental illness.

PSYC 334. Addiction and Recovery. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Research and theories related to the psychological, behavioral and physiological basis of addiction and recovery. A variety of common addictive disorders will be considered including eating, smoking, gambling, work, sex and drugs.

PSYC 339. Human Psychophysiology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An examination of the human psychophysiological literature with emphasis on research findings, clinical applications and theory related to the analysis of the relationships between bodily processes, psychological states and behavior.

PSYC 340. Stereotyping, Prejudice and Discrimination. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Psychological underpinnings of stereotyping, prejudice, and discrimination are examined. Implicit and explicit attitudes of bias such as sexism, racism, and homophobia, and the effects of these attitudes on the self and health, and interventions that reduce attitudes are studied.

PSYC 341. Women and Violence. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Issues of women and violence, combining empirical and theoretical work with community training in agencies dealing with violence against women; including service learning. Formerly a topic under PSYC 375. Two hours lecture and 40 hours of volunteer training.

PSYC 345. Cross-Cultural Psychology. 4 Units.
Cross-cultural psychology focusing on cultural variability in basic psychological processes and the cultural limits of traditional psychological theories.

PSYC 349. The Psychology of Gays and Lesbians. 4 Units.
Analysis of theories and research on homosexuality, social reactions to homosexuality, and gay and lesbian cultural adaptations.

PSYC 350. Development of Exceptional Children. 4 Units.
Prerequisites: HD 240, HD 280, or PSYC 201
Review of theory, assessment, management, and rehabilitation of exceptional children. Includes developmental implications of specific medical conditions, retardation, and learning/cognitive dysfunctions.

PSYC 351. Behavior Modification: Principles and Applications. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Analysis of the theory, techniques and ethics of behavior modification.

PSYC 355. Industrial Psychology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Practices of modern industrial and personnel psychology. Includes selection, placement, training, motivation, job analysis, evaluation and human factors.

PSYC 357. History and Systems of Psychology. 4 Units.
Prerequisites: PSYC 100
A historical framework for integrating basic orientations in contemporary psychology, including the development of the major schools of thought in psychology.

PSYC 358. Cognitive Development. 4 Units.
Prerequisites: PSYC 100 and PSYC 201
Survey of the major theories, issues and research in the development of perceptual and cognitive capacities from childhood through adulthood.

PSYC 359. Evolutionary Psychology. 4 Units.
Prerequisites: PSYC 100
Exploration of the theories and empirical research related to evolutionary psychology. Topics include mating, status, cooperation, aggression and warfare, kin relationships, and sexual conflict.
PSYC 360. Cognitive Psychology. 4 Units.
Prerequisites: PSYC 100
Research and theories concerning human information processing; topics include sensory processes, attention, memory, language and other higher mental processes.

PSYC 361. Intelligence and Creativity. 4 Units.
Introduction to intelligence and creativity with an emphasis on theories, measurement and current debates, including among others, the Bell Curve, the link between creativity and mental illness, and role of IQ tests and creativity in school and work assessment. Formerly a topic under PSYC 375.

PSYC 362. Learning and Motivation. 4 Units.
Prerequisites: PSYC 100
Survey of research and major theories in animal and human learning and motivation. Applications of learning and motivational principles.

PSYC 363. Biological Psychology. 4 Units.
Prerequisites: PSYC 100
Overview of the biological basis of behavior with emphasis on the relationship between brain function and thought, emotion, perception, language, learning, memory and motivation.

PSYC 364. Perception. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Selected topics in the field of perceptual processes. Includes review of contemporary theories and research. Class demonstrations and mini-projects.

PSYC 365. Cognitive Neuroscience. 4 Units.
Prerequisites: PSYC 363 or consent of instructor
Examination of the neural foundations of human mental functioning, including perception, attention, memory, language, thinking and consciousness. Special emphasis on human neuroimaging as well as behavioral and cognitive impairments from brain injury.

PSYC 366. Neuropsychiatric Disorders. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An examination of brain systems involved in psychiatric syndromes and neurological disorders, including Parkinson's disease, Alzheimer's disease, schizophrenia, depression, and bipolar disorders. Provides a basic understanding of brain dysfunctions that contribute to these disorders and rationales for pharmacological treatments.

PSYC 367. MARC Seminar I. 2 Units.
A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 368, PSYC 368, and SSCI 368 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

PSYC 368. MARC Seminar II. 2 Units.
Selected psychology topics with specific focus within relatively narrow content areas. May be repeated for credit as topics change.

PSYC 369. Psychology of Death and Dying. 4 Units.
Prerequisites: PSYC 201 or equivalent
A review of current theory and research on the psychology of grief, death and dying. Offered as HD 372 and PSYC 324. Students may not receive credit for both.

PSYC 370. Seminar in Psychology. 4 Units.
Prerequisites: PSYC 100
Selected topics which encompass areas of current theoretical and/or research interest in psychology. May be repeated for credit as topics change.

PSYC 371. Tests and Measurements. 4 Units.
Prerequisites: PSYC 100 and PSYC 210
Administration of psychological tests and scales; interpretation and use of the data which they yield.

PSYC 372. Psychology of Social Behavior. 4 Units.
Prerequisites: PSYC 100
Major concepts, issues and psychological research regarding social influence on individual behavior.

PSYC 373. Personality and Social Development. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Survey of the major theories of personality.

PSYC 374. Personality. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
Survey of the major theories of personality.

PSYC 375. Psychology of Social Behavior. 4 Units.
Prerequisites: PSYC 100
Major concepts, issues and psychological research regarding social influence on individual behavior.

PSYC 376. Introduction to Psychotherapy. 4 Units.
Prerequisites: PSYC 100
Introduction to theories, methods and research in psychotherapy.

PSYC 377. Community Psychology. 4 Units.
Prerequisites: PSYC 100
Comprehensive study of the discipline of community psychology which emphasizes the relationship of community resources to individual mental health needs.

PSYC 378. Abnormal Psychology. 4 Units.
Prerequisites: PSYC 100 or consent of instructor
An introduction to psychopathology, emphasizing the major interpretations and treatments of emotional and behavioral disorders.

PSYC 379. Psychopathology of Childhood. 4 Units.
Prerequisites: PSYC 100 and PSYC 201
Psychological and emotional disorders of children with special emphasis on diagnostic and clinical treatment.
PSYC 395. Psychology of Consciousness. 4 Units.
Prerequisites: PSYC 100
Human consciousness from the perspectives of the experiential, behavioral and physiological psychology literatures. Includes survey of research and theory on topics such as waking consciousness, dreams, meditation and altered states of consciousness.

PSYC 400. Child Assessment. 5 Units.
Prerequisites: one of the following: HD 240, HD 280, PSYC 201 or PSYC 240; and one of the following: HD 245, HD 246 or HD 247
Theory and procedures for assessing cognitive, social, and motor abilities in infants and children. Includes a practicum in administering and interpreting selected developmental screening tests. Four hours lecture and three hours practicum. (Also offered as PSYC 400. Students may not receive credit for both.)

PSYC 410. Advanced Psychological Statistics. 5 Units.
Prerequisites: ADMN 210 or PSYC 210 or consent of instructor
Coverage of advanced statistical reasoning and application of statistical procedures in psychology. Includes both parametric and nonparametric techniques with an introduction to multivariate statistics. Statistical computer packages will be introduced. Four hours lecture and three hours laboratory.

PSYC 421. Advanced Seminar in Psychology: Developmental. 4 Units.
Prerequisites: PSYC 201 and PSYC 311 or consent of instructor
A review of selected research areas in the fields of child and life-span developmental psychology. Students will develop an advanced project.

PSYC 422. Advanced Seminar in Psychology: Clinical. 4 Units.
Prerequisites: PSYC 311, PSYC 386, and PSYC 390
Contemporary topics in clinical psychology, such as integrative treatment approaches, outcome research, psychopathology, adaptation and coping, health promotion, cultural factors in diagnosis and treatment, and common factors in effective treatment such as the working alliance and other relationship factors. Students will develop an advanced project.

PSYC 423. Advanced Seminar in Psychology: Biological. 4 Units.
Prerequisites: PSYC 311 and 363 or consent of instructor
A review of the literature regarding the neural and endocrine processes underlying brain function and behavior. Students will develop an advanced project.

PSYC 424. Advanced Seminar in Psychology: Social. 4 Units.
Prerequisites: PSYC 311 and PSYC 382 or consent of instructor
A review of theories and empirical results of experimental social psychology in selected areas such as group dynamics, social perception, communication and attitudes. Students will develop an advanced project.

PSYC 425. Advanced Seminar in Psychology: Personality. 4 Units.
Prerequisites: PSYC 311 and 385
A review of contemporary personality theories and the relationship of personality to behavior. Students will develop an advanced project.

PSYC 426. Advanced Seminar in Psychology: Learning and Motivation. 4 Units.
Prerequisites: PSYC 311 and 362, or consent of instructor
A review of selected theories and research in areas of learning and motivation. Students will develop an advanced project.

PSYC 427. Advanced Seminar in Psychology: Cognition and Perception. 4 Units.
Prerequisites: PSYC 311 and either PSYC 360 or PSYC 364
A review of human information processing, memory, thinking and perceptual processes. Students will develop an advanced project.

PSYC 428. Advanced Seminar in Psychology: Industrial and Organizational. 4 Units.
Prerequisites: PSYC 311, PSYC 377 and one of the following: MGMT 302, PSYC 302 or PSYC 355
A review of industrial/organizational psychology, in selected areas such as work motivation, performance evaluation, training techniques, and selection approaches. Students will develop an advanced project.

PSYC 431. Experimental Psychology: Developmental. 6 Units.
Prerequisites: PSYC 201 and PSYC 311 or consent of instructor
Selected research areas in the fields of child and life-span developmental psychology. Includes review of current literature and experimental techniques in developmental research. Four hours lecture and six hours laboratory.

PSYC 432. Experimental Psychology: Clinical. 6 Units.
Prerequisites: PSYC 311, and either PSYC 386 or 390
Empirical studies in clinical psychology. Study options include experimental psychopathology, adaptation and coping, health promotion, anxiety/stress, mood/emotion and cultural factors in diagnosis and treatment. Four hours lecture and six hours laboratory.

PSYC 433. Experimental Psychology: Biological. 6 Units.
Prerequisites: PSYC 311 and PSYC 363 or consent of instructor
Introduction to the neural processes underlying brain function and behavior. Particular emphasis will be placed on neuroanatomy and the actions of drugs on brain and behavior. Students will receive practical training in advanced neuroscience techniques. Four hours lecture and six hours laboratory.

PSYC 434. Experimental Psychology: Social. 6 Units.
Prerequisites: PSYC 311 and 382
Methods, theories and empirical results of experimental social psychology in selected areas such as group dynamics, social perception, communication and attitudes. Four hours lecture and six hours laboratory.

PSYC 435. Experimental Psychology: Personality. 6 Units.
Prerequisites: PSYC 311, 377 and 385
Empirical study of personality theories and the relationship of personality to behavior. Four hours lecture and six hours laboratory.
PSYC 436. Experimental Psychology: Learning and Motivation. 6 Units.
Prerequisites: PSYC 311 and PSYC 362
Selected theories and research in areas of learning and motivation. Includes literature review and experimental analysis. Four hours lecture and six hours laboratory.

PSYC 437. Experimental Psychology: Cognition and Perception. 6 Units.
Prerequisites: PSYC 311 and either PSYC 360 or 364
Empirical study of human information processing, memory, thought and perceptual processes. Four hours lecture and six hours laboratory.

PSYC 438. Experimental Psychology: Industrial and Organizational. 6 Units.
Prerequisites: PSYC 311, 377 and one of the following: MGMT 302, PSYC 362 or 355
Methods and empirical study of industrial-organizational psychology, in selected areas such as work motivation, performance evaluation, training techniques, and selection approaches. Four hours lecture and six hours laboratory.

PSYC 442. Behavioral Neuroscience. 4 Units.
Prerequisites: HD 324, PSYC 324, or PSYC 363, or consent of instructor
Intensive review of the neural mechanisms underlying behavior. Considerable emphasis is placed on sensory, motor, and homeostatic functioning. Higher-order functioning, including learning and memory, will also be covered.

PSYC 468. MARC Seminar II. 2 Units.
Prerequisites: NSCI 368, PSYC 368 or SSCI 368
A selected examination of original research articles in behavioral and biomedical sciences focusing on improving scientific writing skills, shaping long-term research projects, and the development of research funding proposals. Offered as NSCI 468, PSYC 368, and SSCI 468 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Minority Access to Research Careers (MARC) program is approved.

PSYC 530. Instructional Assistant Practicum. 2 Units.
Prerequisites: For undergraduates, Psychology major status and consent of the department; for graduate students, classified standing in Psychology M.S. or M.A
Training in a variety of skills necessary to serve as an Instructional Student Assistant (ISA) supporting a college-level instructor in the use of high impact practices. Required for students applying to be an ISA for the Psychology Department degree program.

PSYC 538. Introduction to Psychopharmacology. 4 Units.
Prerequisites: HD 324, PSYC 324, 333 or 363, or consent of instructor
Examination of the basic pharmacological principles of psychoactive drugs. Particular emphasis is placed on neuronal functioning, mechanisms of drug action, and behavioral outcomes.

PSYC 540. Work, Retirement and Leisure. 4 Units.
Prerequisites: PSYC 100
Theory and research on work, retirement and leisure during the adult years. Offered as HD 540 and PSYC 540. Students may not receive credit for both.

PSYC 575. Internship in Psychology. 4 Units.
Prerequisites: consent of instructor and department
Supervised work and study in private or public organizations. May be repeated once for credit. (Only four units of PSYC 575 may be applied to the psychology major.) Graded credit/no credit.

PSYC 581A. Seminar in Industrial/ Organizational Psychology: Current Professional Issues. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 581B. Seminar in Industrial/ Organizational Psychology: Organizational Leadership. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 581C. Seminar in Industrial/ Organizational Psychology: Processes of Work Groups. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 581D. Seminar in Industrial/ Organizational Psychology: Training and Executive Development. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 581E. Seminar in Industrial/ Organizational Psychology: Ethical Issues in Organizations. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 581F. Seminar in Industrial/ Organizational Psychology: Diversity in Organizations. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.
PSYC 581G. Seminar in Industrial/Organizational Psychology: Legal Issues for Organizational Professionals. 2 Units.
Prerequisites: upper-division or graduate standing and consent of department
Selected topics in industrial/organizational psychology. M.S. I/O option candidates are required to take all seven topics. Same topic may not be repeated for credit.

PSYC 595B. Independent Study. 2 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving literature and/or experimental effort. A total of eight units of PSYC 595 may be applied toward graduation, of which a maximum of four units can be applied toward the upper-division requirements in the psychology major.

PSYC 595C. Independent Study. 3 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving literature and/or experimental effort. A total of eight units of PSYC 595 may be applied toward graduation, of which a maximum of four units can be applied toward the upper-division requirements in the psychology major.

PSYC 595D. Independent Study. 4 Units.
Prerequisites: a minimum overall grade point average of 3.0, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken
Special topics involving literature and/or experimental effort. A total of eight units of PSYC 595 may be applied toward graduation, of which a maximum of four units can be applied toward the upper-division requirements in the psychology major.

PSYC 596. Practicum in Psychology: Peer Advising. 2 Units.
Prerequisites: consent of instructor and department
Theory, training, and practice in the basic knowledge, skills, and abilities involved in academic peer advising. One hour seminar, three hours practicum. A total of eight units may be applied toward graduation, of which a maximum of four units can be an upper-division elective in the psychology or human development major. Graded credit/no credit. An application must be submitted during the quarter prior to the quarter student plans to enroll.

PSYC 597. Honors Seminar. 4 Units.
Prerequisites: PSYC 311 and consent of department
Provides an opportunity for students to develop an independent project under faculty supervision. Students will meet as a class to discuss their projects, as well as various advanced topics. Enrollment is limited to students whose formal application for departmental honors is approved. (Offered as HD 597 and PSYC 597. Students may not receive credit for both.)

PSYC 598A. Honors Project I. 2 Units.
Prerequisites: PSYC 597 and consent of department
Provides an opportunity for students to conduct an independent project under faculty supervision. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major. (Offered as HD 598A and PSYC 598A. Students may not receive credit for both.)

PSYC 598B. Honors Project II. 2 Units.
Prerequisites: PSYC 598A and consent of department
Provides an opportunity for students to conduct an independent project under faculty supervision. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major. (Offered as HD 598B and PSYC 598B. Students may not receive credit for both.)

PSYC 601. Performance Assessment. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department
Current research and methods of performance appraisal. Topics include the study of job analysis, performance appraisal process and instrumentation, and job evaluation. Formerly PSYC 661.

PSYC 602. Organizational Development. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department
Critical review of current psychological theories and methods of organizational change. Topics include organization processes and interventions at the organizational and group levels. Formerly PSYC 660.

PSYC 603. Personnel Selection and Validation. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department
Principles and methods of personnel selection, including validation strategies and the effects of governmental and legal issues on personnel actions. Formerly PSYC 662.

PSYC 604. Work Motivation and Organizational Reward Systems. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program or consent of department
Review and critical discussion of major theories and current research of motivation in the workplace, including examination of research on reward and compensation systems, and a review and discussion of their application in work organizations.

PSYC 609B. Graduate Research in Psychology. 2 Units.
Prerequisites: classified standing and consent of instructor
Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.

PSYC 609C. Graduate Research in Psychology. 3 Units.
Prerequisites: classified standing and consent of instructor
Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.
PSYC 609D. Graduate Research in Psychology. 4 Units.
Prerequisites: classified standing and consent of instructor
Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.

PSYC 609E. Graduate Research in Psychology. 5 Units.
Prerequisites: classified standing and consent of instructor
Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit.

PSYC 611B. Advanced Independent Study. 2 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 611C. Advanced Independent Study. 3 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 611D. Advanced Independent Study. 4 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 611E. Advanced Independent Study. 5 Units.
Prerequisites: PSYC 640 or PSYC 641; advancement to candidacy and consent of department
Advanced research on a specific topic selected by the student with the approval of the students committee. May be repeated up to two times for a maximum of 15 units credit with approval of the students committee and the department chair. Only five units are required for the masters degree.

PSYC 612B. Directed Readings. 2 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 612C. Directed Readings. 3 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 612D. Directed Readings. 4 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 612E. Directed Readings. 5 Units.
Prerequisites: graduate standing and consent of department
Special topics involving supervised readings under the direction of a faculty member.

PSYC 613. Short-term Counseling. 4 Units.
Prerequisites: classified standing and consent of department
Counseling skills and strategies for short-term therapeutic intervention.

PSYC 614. Couples Counseling. 4 Units.
Prerequisites: classified standing and consent of department
Theory and practice of counseling with couples.

PSYC 615. Group Counseling. 4 Units.
Prerequisites: classified standing and consent of department
Theory and practice of group counseling.

PSYC 616. Child and Spousal/Partner Abuse. 4 Units.
Prerequisites: classified standing and consent of department

PSYC 617. Clinical Psychopharmacology. 4 Units.
Theory and application of psychotropic principles for the major DSM psychiatric disorders, including the examination of the effects of the psychotropic medications on experience, behavior and symptoms.

PSYC 618. Community and Public Mental Health. 4 Units.
Prerequisites: classified standing and consent of department
 Provision of marriage and family therapy in community and public mental health, including recovery-oriented principles, client advocacy, case management, and systems of care as well as strategies for therapeutic intervention consistent with recovery-oriented, strengths-based practice.

PSYC 619. Community Disaster, Trauma and Resilience. 4 Units.
Prerequisites: classified standing and consent of department
 Community disaster and trauma response as well as training in resiliency models for recovering from trauma.

PSYC 630. Teaching of Psychology. 2 Units.
Prerequisites: classified graduate status in psychology and consent of department
Instructional methods for teaching of psychology at the college level.

PSYC 631. Academic Research in Psychology. 2 Units.
Professional issues related to academic research. Topics include how to review a journal article, submit an article, present a talk and summarize one’s research.
PSYC 633. Professional Ethics and Law. 4 Units.
Prerequisites: classified standing in Psychology M.S. degree program and consent of department
Ethical and legal considerations involved in counseling practice, including statutory law, legal trends, and ethical behavior in the mental health profession.

PSYC 636. Cross-Cultural Counseling. 4 Units.
Prerequisites: classified standing in Psychology M.S. or M.A. degree program and consent of department
Study of how cultural values and ethnic backgrounds influence counseling process and outcome, with focus on counseling with Blacks, Hispanics, Asians, and Native Americans.

PSYC 638. Substance Abuse: Detection, Assessment and Treatment. 4 Units.
Prerequisites: classified standing in Psychology M.S. or M.A. degree programs and consent of department
Assessment and treatment of substance abuse, including alcoholism and other forms of chemical dependency with a focus on etiological factors and relapse prevention.

PSYC 640. Advanced Methods in Psychological Research. 4 Units.
Prerequisites: classified standing and consent of department
Those aspects of philosophy of science and methods of inquiry as applied to procedures for obtaining and evaluating data as well as issues in experimental design.

PSYC 641. Analysis of Variance. 5 Units.
Prerequisites: classified standing and consent of department
Review of concepts of statistical inference. Applications of statistical techniques to the design and interpretation of experimental research with an emphasis on Analysis of Variance (ANOVA). Statistical computer packages will be introduced in the laboratory section. Four hours lecture and three hours laboratory. Formerly PSYC 570.

PSYC 642. Regression and Nonparametric Statistics. 4 Units.
Prerequisites: classified standing and consent of department
Review of concepts of statistical estimation. Applications of statistical techniques to the design and interpretation of applied correlational and quasi-experimental research with an emphasis on correlation, regression, and nonparametric techniques. Statistical computer packages will be introduced in the activity section. Three hours lecture and two hours activity.

PSYC 643. Multivariate Methods. 4 Units.
Prerequisites: PSYC 641 or equivalent, classified standing and consent of department
Multivariate models used in psychological research, including multiple regression, discriminant function analysis, factor analysis, canonical analysis, and multiple analysis of variance. Three hours lecture and two hours activity.

PSYC 644. Applied Psychological Measurement. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. program or consent of department
Theories, methods, and issues of psychological measurement and assessment. Topical coverage will include test construction, test evaluation, survey development, ethics, and testing in applied settings. Formerly PSYC 663. Three hours lecture and two hours activity.

PSYC 647. Advanced Adulthood and Aging Development. 4 Units.
Prerequisites: PSYC 654 and classified graduate status
Key topics in developmental psychology concerning young, middle aged and older adults. Specialized methodological and measurement concerns will be discussed as well as age-related changes and theoretical/empirically based applications.

PSYC 650. Advanced Cognitive Psychology. 4 Units.
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department
Research and theories in the psychology of thinking, knowing and remembering.

PSYC 652. Advanced Learning and Motivation. 4 Units.
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department
Major theories and research in learning and motivation with emphasis on current issues.

PSYC 654. Advanced Life-Span Developmental Psychology. 4 Units.
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department
Examination of the developmental processes, theories, issues and research in life-span developmental psychology.

PSYC 655. Advanced Seminar in Developmental Psychology. 4 Units.
Prerequisites: classified standing and consent of department
Selected current issues and advanced topics of theoretical, research or applied interest in developmental psychology.

PSYC 656. Advanced Biological Psychology. 4 Units.
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department
Study of biological bases of behavior with emphasis on recent research.

PSYC 658. Advanced Personality and Social Psychology. 4 Units.
Prerequisites: classified graduate standing in Psychology M.A. or M.S. degree programs and consent of department
Major theories, methods and empirical findings in personality and social psychology.

PSYC 664. Applied Life-Span Developmental Psychology. 4 Units.
Prerequisites: classified standing and consent of department
Conceptual, methodological and policy related issues in the application of developmental psychology to applied settings.
PSYC 665. Psychopathology. 4 Units.
Prerequisites: classified standing in Psychology M.S. degree program and consent of department; or PSYC 390, classified standing in Psychology M.A. degree program and consent of department; or PSYC 390 and consent of department
Major types of human psychopathology, including descriptive symptomatology, etiological factors and treatment considerations.

PSYC 667. Family Processes. 4 Units.
Prerequisites: classified standing and consent of department
Normal and dysfunctional family processes, including analysis of family systems, family communication and strategies for therapeutic intervention. Formerly PSYC 666.

PSYC 671. Marriage and Family Therapy Skills I. 5 Units.
Prerequisites: classified standing in the Psychology M.S. degree program; concurrent enrollment in PSYC 687A and consent of department
Foundational skills in counseling, the therapeutic alliance, crisis management and treatment planning. Three hours lecture and six hours laboratory.

PSYC 672. Marriage and Family Therapy Skills II. 5 Units.
Prerequisites: grade of no less than B in PSYC 671; concurrent enrollment in PSYC 687B and consent of department
Advanced counseling skills used to identify and modify familial, relational, emotional, cognitive and behavioral aspects of individual, couple and family functioning. Three hours lecture and six hours laboratory.

PSYC 673. Marriage and Family Therapy Skills III. 5 Units.
Prerequisites: classified standing in the M.S. in Psychology, grade of no less than B- in PSYC 672 and PSYC 687B; concurrent enrollment in PSYC 687C and consent of department
Advanced counseling skills used with children, adolescents and their families. Three hours lecture and six hours laboratory.

PSYC 675. Practicum in Applied Psychology. 4 Units.
Prerequisites: classified graduate standing in M.A. or M.S. degree program and consent of department
Training in the application of methods and theories of psychology to the solution of practical problems within organizations. The course will include both a classroom component and practical applications.

PSYC 678. Advanced Topics in Psychology. 2 Units.
Prerequisites: classified standing and consent of department
Selected advanced psychology topics with specific focus within relatively narrow content area. Credit may not be received twice for the same topic.

PSYC 679. Theories of Counseling and Psychotherapy. 4 Units.
Prerequisites: classified standing and consent of department
Comparative analysis of major theories related to current practice of counseling and psychotherapy.
PSYC 689D. Externship in Applied Psychology. 4 Units.
Prerequisites: PSYC 640 and consent of department
Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of five units may apply toward the I/O Option. Graded credit/no credit.

PSYC 689E. Externship in Applied Psychology. 5 Units.
Prerequisites: PSYC 640 and consent of department
Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of five units may apply toward the I/O Option. Graded credit/no credit.

PSYC 691. Human Sexuality and Treatment. 4 Units.
Prerequisites: classified standing and consent of department
Study of human sexuality with emphasis on both healthy sexuality and sexual dysfunction. Clinical interventions to enhance sexual functioning and to treat sexual dysfunctions will be presented. Formerly PSYC 591.

PSYC 697A. Advanced Practicum in Counseling Psychology I. 4 Units.
Prerequisites: classified standing in the Psychology M.S. degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; a grade of A or B in PSYC 673; and consent of department
Supervised counseling field work in private or public mental health agencies. Designed to be taken three times (year long) for maximum of 12 units of credit. Graded credit/no credit.

PSYC 697B. Advanced Practicum in Counseling Psychology II. 4 Units.
Prerequisites: classified standing in the Psychology M.S. degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; a grade of A or B in PSYC 673; and consent of department
Supervised counseling field work in private or public mental health agencies. Designed to be taken three times (year long) for maximum of 12 units of credit. Graded credit/no credit.

PSYC 697C. Advanced Practicum in Counseling Psychology III. 4 Units.
Prerequisites: classified standing in the Psychology M.S. degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; a grade of A or B in PSYC 673; and consent of department
Supervised counseling field work in private or public mental health agencies. Designed to be taken three times (year long) for maximum of 12 units of credit. Graded credit/no credit.

PSYC 698A. Continuous Enrollment for Graduate Candidacy Standing. 1 Unit.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 698B. Continuous Enrollment for Graduate Candidacy Standing. 2 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. 698 is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 698C. Continuous Enrollment for Graduate Candidacy Standing. 3 Units.
Prerequisites: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 698 each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 698 through the university have full use of all university facilities.
